Locally Owned and Managed - Healthier for your Family!

NO Hormones, NO Bi-Products, NO Preservatives, NO Colors or Dyes; GRASS FED BEEF has a much higher omega3:omega6 ratio than grain-fed beef, as well as being leaner overall. We also dry-age our beef prior to trimming for superior tenderness and flavor. Lean, juicy, and robust with flavor; your family will taste and appreciate the difference every time!

TRY SOME OF OUR INDIVIDUAL CUTS!
